

SOFTWARE ENGINEER – TYSONS, VIRGINIA

ObjectVideo Labs is looking for highly motivated self-starters to work in a fast-paced R&D environment. Candidates will work with small teams to design, prototype and develop state-of-the-art automated image and video analysis solutions.

Candidates will have the opportunity to work across a variety of technical areas. Typical projects will involve diverse technologies and skills. Strong multi-tasking skills and the ability to self-learn are must-have attributes. Candidates must be able to communicate well within a team environment and work independently on self-directed tasks. Motivated and creative problem solvers will have opportunities to influence future projects and guide research directions.

CANDIDATES WILL:

- Develop software for a wide variety of platforms and technologies.
- Engage in research, evaluation and application of new technologies and methodologies to solve challenging project goals.
- Take part in entire project lifecycle, from requirements development to deployment.
- Thrive in an Agile development environment, including quick development cycles, evolving requirements and self-direction paired with team collaboration.

CANDIDATE PROFILE:

- Bachelors or Masters Degree in Computer Science, Computer Engineering, related field or equivalent work experience.
- 4+ years of professional software development experience.
- Strong programming skills; C/C++, C#, and/or object oriented programming.
- Experience with GPU and image and video processing.
- Experience with database design and programming, both traditional SQL and non-SQL technologies.
- Familiarity with distributed systems development and concurrent processing, and cloud architectures.
- Familiarity with data analysis, python, SAAS and/or SOA architectures, and computer vision algorithms is a plus.
- Experience with agile methodology such as SCRUM, Kanban, or XP also a plus.

ObjectVideo Labs offers competitive pay and a generous benefits package including health and welfare benefits, 401(k) with employer match, paid holidays, paid time off, and paid maternity/paternity leave. We offer a casual work environment, gym subsidy, education assistance program, and in-suite bike racks and showers.
